AWS Certified Cloud Practitioner

Issued by: [Amazon Web Services Training and Certification](#)

Issued to: Yoshua Elmaryono

Issued on: 28 September 2021

Expires on: 8 January 2025

Description

Earners of this certification have a fundamental understanding of IT services and their uses in the AWS Cloud. They demonstrated cloud fluency and foundational AWS knowledge. Badge owners are able to identify essential AWS services necessary to set up AWS-focused projects.

AWS Certified Solutions Architect – Associate

Issued by: [Amazon Web Services Training and Certification](#)

Issued to: Yoshua Elmaryono

Issued on: 2 November 2021

Expires on: 2 November 2024

Description

Earners of this certification have a comprehensive understanding of AWS services and technologies. They demonstrated the ability to build secure and robust solutions using architectural design principles based on customer requirements. Badge owners are able to strategically design well-architected distributed systems that are scalable, resilient, efficient, and fault-tolerant.

AWS Certified Developer – Associate

Issued by: [Amazon Web Services Training and Certification](#)

Issued to: Yoshua Elmaryono

Issued on: 4 December 2021

Expires on: 4 December 2024

Description

Earners of this certification have a comprehensive understanding of application life-cycle management. They demonstrated proficiency in writing applications with AWS service APIs, AWS CLI, and SDKs; using containers; and deploying with a CI/CD pipeline. Badge owners are able to develop, deploy, and debug cloud-based applications that follow AWS best practices.

AWS Certified SysOps Administrator – Associate

Issued by: Amazon Web Services Training and Certification

Issued to: Yoshua Elmaryono

Issued on: 8 January 2022

Expires on: 8 January 2025

Description

Earners of this certification have a comprehensive understanding on how to deploy, manage, and operate IT systems on the AWS Cloud. They demonstrated the ability to migrate on-premises workloads to AWS and monitor, scale, and secure systems on the AWS platform. Badge owners are able to provide guidance on implementing best practices for cloud operations.
